Skills

Algorithm implementation

Code reviews

Java programming skills

Algorithms and data structures

Wireshark software

Programming literacy in python

Penetration testing in kali Linux

Cryptography

Nmap skill

Android development

Technical Writing

Critical Thinking

Object-oriented programming

I am an accomplished **Android Developer** with a strong foundation in mobile app development, specializing in **Android app development**. Over time, I have honed my skills to create user-friendly, high-performance applications that cater to a wide range of user needs. Beyond my expertise in Android development, I possess valuable experience in **Python programming** and **Quantum computing**, gained through a six-month immersion in these fields Additionally, I have cultivated a robust knowledge base in the field of **Cybersecurity**, further enhancing my capabilities.

I am enthusiastic about contributing my expertise to dynamic projects and continuing my journey of expanding knowledge in the realms of Android development, programming, quantum computing, and cybersecurity.
